Price List w.e.f 19-07-2014

Home Lighting Systems

Model	Solar Panel	60 LED Strip	Price
KL127S Kit contains: Solar panel - 8w x 1 nos 60 LED light strips x 1 nos Battery - Exide - 12V 7Ah x 1 nos With Dusk to Dawn Feature	8W	1	Rs.4500/- Including Door Delivery Charges
KL127DH Kit contains: Solar panel - 12w x 1 nos 60 LED light strips x 1 nos Battery - Exide - 12V 7Ah x 1 nos With Dusk to Dawn Feature	12W	1 BEST FOR EVERY PLACE	Rs.6000/- Including Door Delivery Charges

Compound Lighting Systems

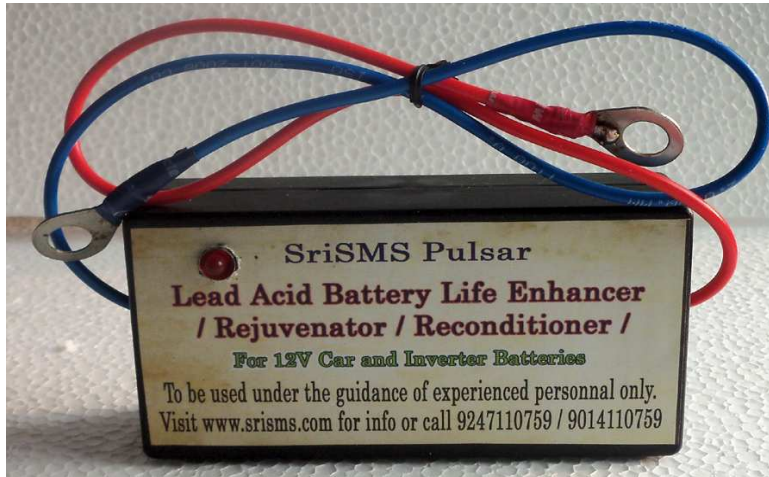

KL127C1H Kit contains: Solar panel - 12w x 1 nos 60 LED light strips x 1 nos Battery - Exide - 12V 7Ah x 1 nos With Dusk to Dawn Feature	12W	1	Rs.6250/- Including Door Delivery Charges

SriSMS Lead Acid Battery Pulsar / Battery Life Enhancer

Srisms battery pulsar is designed to recondition / rejuvenate poor-functional battery or batteries which have lost their rated capacity

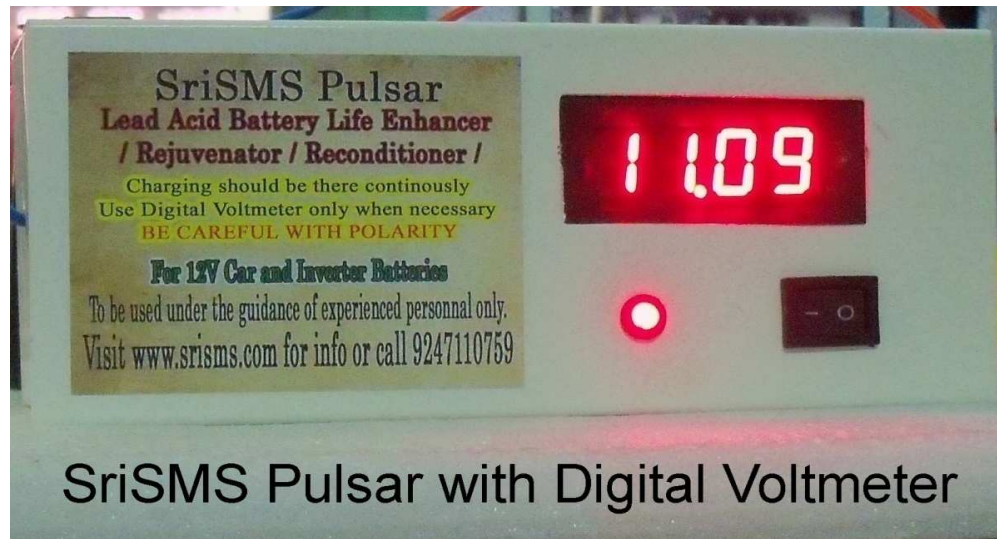

Rs.1000/-

SriSMS Lead Acid Battery Pulsar / Battery Life Enhancer / Battery Life Saver with Digital Voltmeter

Srisms battery pulsar is designed to recondition / rejuvenate poor-functional battery or batteries which have lost their rated capacity

Rs.1750/-

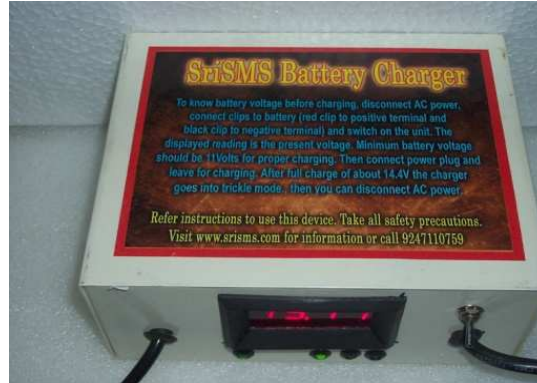

Sri SMS Lead Acid Battery Charger 14.4V 10amps with digital meter

Srisms battery charger is designed to charge battery which has lost their rated voltage or charge. This is useful for batteries in two wheeler and four wheeler vehicles, trucks, fork lift vehicles, inverter batteries, emergency vehicles, boats etc where ever there is regular charging of lead acid batteries. For LMF only.

Digital battery voltage indicator in 19.99 display format

Rs.3250/-

Sri SMS Lead Acid Battery Charger 14.4V 10amps

Rs.2500/-

Srisms battery charger is designed to charge battery which has lost their rated voltage or charge. This is useful for batteries in two wheeler and four wheeler vehicles, trucks, fork lift vehicles, inverter batteries, emergency vehicles, boats etc where ever there is regular charging of lead acid batteries. For LMF only.

Sri SMS Lead Acid Battery Charger 28V 5amps

Rs.2750/-

Srisms battery charger is designed to charge battery which has lost their rated voltage or charge. This is useful for batteries in two wheeler and four wheeler vehicles, trucks, fork lift vehicles, inverter batteries, emergency vehicles, boats etc where ever there is regular charging of lead acid batteries. For LMF only.

48VDC to 24VDC 5Amps SMPS Buck Converter
Rs.2500/-

Solar Car battery charger

Solar panel is a 12V 4000mW module. Rugged design.
 Mobile charger attachment
 Battery Pulsar
 3mts wire
 Battery clips

Price
Rs.2500/-

Solar Lantern

18 LED Lantern Dual Charging AC and Solar
 1. Light starts automatically when power goes off
 2. Four step dimmer for required lighting
 3. Mobile charging facility with Nokia pin **Rs.2000/-**
 4. Charging indicator
 5. Battery full indicator (on green)
 6. Battery low indicator (on red)
 Kit contains:
 Lantern
 4W solar panel. Ac adaptor. Nokia charging pin
Will be supplied without battery

18 LED Shop Keepers Lantern Dual Charging AC and Solar
 1. Light starts automatically when power goes off
 2. Four step dimmer for required lighting
 3. Mobile charging facility with Nokia pin **Rs.2000/-**
 4. Charging indicator
 5. Battery full indicator (on green)
 6. Battery low indicator (on red)
 Kit contains:
 Lantern
 4W solar panel. Ac adaptor. Nokia charging pin
Will be supplied without battery

Solar Panels / Modules
Mono Crystalline / Poly Crystalline Solar Modules

Mono Crystalline / Poly Crystalline Solar Modules
12V 4W

- * 12 Volts 4Wp
 - * Voc 21.00 V
 - * Vmp 17.00 V
 - * Isc 300mA
 - * Full power obtained at 23 degree south inclined noon-sun
 - * Module dimensions 280 mm X 180 mm X 34 mm
 - * Module weight 1500 grams (approx)
- Price Rs.1100/-**

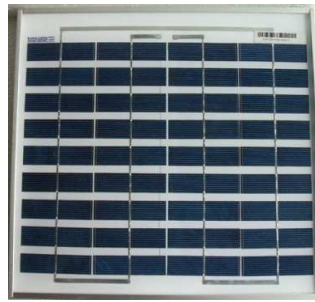

Mono Crystalline / Poly Crystalline Solar Modules

12V 8W

- * 12 Volts 8Wp
- * Voc 21.60 V
- * Vmp 16.4 V
- * Isc 625mA
- * Full power obtained at 23 degree south inclined noon-sun
- * Module dimensions 340 mm X 340 mm X 34 mm
- * Module weight 1800 grams (approx)

Price Rs.2100/-

Mono Crystalline / Poly Crystalline Solar Modules

12V 12W

- * 12 Volts 12Wp
- * Voc 21.60 V
- * Vmp 16.4 V
- * Isc 938mA
- * Full power obtained at 23 degree south inclined noon-sun
- * Module dimensions 340 mm X 340 mm X 34 mm
- * Module weight 1600 grams (approx)

Price Rs.2250/-

Mono Crystalline / Poly Crystalline Solar Modules

12V 50W

- 50Wp 12Volts
- Voc 21.00 V
- Vmp 16.40 V
- Isc 4.00 A
- Efficiency: 16%
- Expected life: 25yrs
- Full power obtained at 23 degree south inclined noon-sun
- Module dimensions 775 mm X 655 mm X 34 mm
- Module weight 6.500Kg (approx)

Price Rs.4000/-

Mono Crystalline / Poly Crystalline Solar Modules

12V 100W

- 100Wp 12Volts
- Voc 21.60 V
- Vmp 16.40 V
- Isc 7.813
- Efficiency: 16%
- Expected life: 25yrs
- Full power obtained at 23 degree south inclined noon-sun
- Module dimensions 1205 mm X 655 mm X 34 mm
- Module weight 9.500Kg (approx)

Price Rs.7,500/-

Solar Charge Controllers 12v 5amps

- Input voltage 9 - 21V
- Output voltage 13.5 to 14V
- Input current Max 5Amps
- Type Analog PWM
- With Dusk to Dawn feature

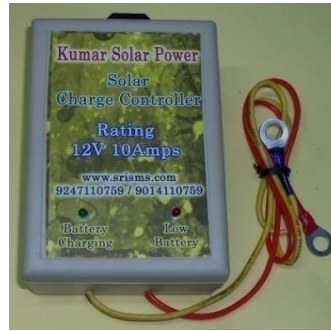

Price Rs.1250/-

Solar Charge controller 12V 10Amps

Input voltage 9 - 21V
Output voltage 13.5 to 14V
Input current Max 10Amps
Type Microprocessor based PWM
Low voltage & charging indicators and battery connecting wires.

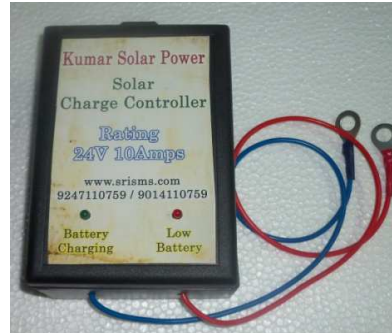

Price
Rs.1800/-

Solar Charge controller 24V 10Amps

Input voltage 18 - 36V
Output voltage 13.5 to 14V
Input current Max 10Amps
Type Microprocessor based PWM
Low voltage & charging indicators and battery connecting wires.

Price
Rs.1800/-

Solar Charge controller 12V 40Amps

Input voltage 18 - 36V
Output voltage 13.5 to 14V
Input current Max 40Amps
Type Microprocessor based PWM
Low voltage & charging indicators and battery connecting wires.

Price
Rs.2000/-

Magic Solar Charger / Converter 12V 40Amps

Convert your existing inverter system to solar system
Solar Converter with Charge Controller
& Power Condition Unit with 12Volt 40Amps
Solar Prioritizer / Automator / Super charger
12V 40Amps rating

Price
Rs.4500/-

Solar All in one 12V 40Amps

Convert your existing inverter system to solar system
Solar Converter with Charge Controller
& Power Condition Unit with 24Volt 40Amps
Solar Prioritizer / Automator / Super charger
12V 80Amps rating
MCB & Digital display

Price
Rs.12000/-

Solar Charge controller 24V 40Amps

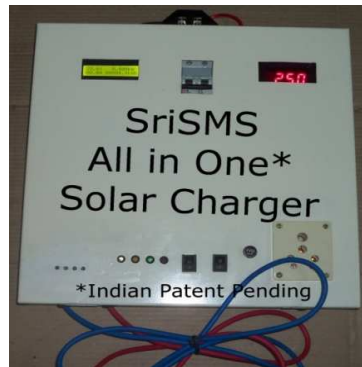

Input voltage	18 - 36V	Price
Output voltage	13.5 to 14V	Rs.2500/-
Input current	Max410Amps	
Type	Microprocessor based PWM	
Low voltage & charging indicators and battery connecting wires.		

Solar All in one 24V 40Amps

Convert your existing inverter system to solar system
 Solar Converter with Charge Controller
 & Power Condition Unit with 24Volt 40Amps
 Solar Prioritizer / Automator / Super charger
 24V 40Amps rating
 MCB & Digital display

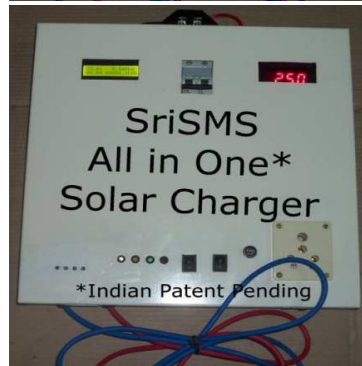

Price
Rs.12500/-

Solar All in one 24V 80Amps

Convert your existing inverter system to solar system
 Solar Converter with Charge Controller
 & Power Condition Unit with 24Volt 40Amps
 Solar Prioritizer / Automator / Super charger
 24V 80Amps rating
 MCB & Digital display

Price
Rs.14000/-

Solar Converter 48V 40Amps

Convert your existing inverter system to solar system
 Solar Converter with Charge Controller
 & Power Condition Unit with 48Volt 40Amps
 Solar Prioritizer / Automator / Super charger
 48V 40Amps rating

Price
Rs.7250/-

Solar All in one 48V 40Amps

Convert your existing inverter system to solar system
 Solar Converter with Charge Controller
 & Power Condition Unit with 48Volt 40Amps

Solar Prioritizer / Automator / Super charger
48V 40Amps rating
MCB & Digital display

Price
Rs.15500/-

Voltage Booster from 12V to 19.5V

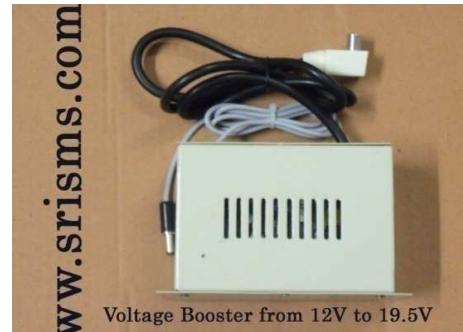

For DIY kits, laptop charging etc

Observe polarity. Laptop pins have to be arranged by yourself.

SMPS BASED

Price Rs.2000/-

Input from: 12V 7ah battery ouput 19.5V @ 2amps

Multipurpose portable CFL UPS

with AC & DC outs

Wallmountable. All protections enabled

With Exide 12V 7Ah battery. Solar panel not included.

Rs.3000/-

Useful for charging mobiles, run CFL, run DC fan and lights. Since its solar and grid compatible its a perfect gift for villages.

Solar Energy Meter

Solar Energy meter to measure Volts, Amps & Kilowatthours
Micro controller based to know your solar panel output
12Volt 40Amps

Operating parameters:
Voltage range: 10 - 56V DC
Amp: Max 30amps

Price
Rs.2500/-

Display show at par with the battery charge available

Other models:

1. 24V system 30amps (10 to 56V) - Rs.2500/-
2. 48V system 60Amps (20 to 55V) - Rs.4800/-
3. 120V system 50Amps (80 to 245V) - Rs.6000/-

Solar Fan with Home Light & Night Light

Comes with 12Volt 20Watt rugged Indian make Solar Panel, 10mts heavy duty cable / wire and 15Watts DC motor With 12V 7Ah Exide battery and power adaptor With battery protection

Price
Rs.7000/-

Mobile Chargers

Emergency Mobile charger

It works on one AA battery (normal or re-chargeable battery)

Input voltage: DC 1.5V (typical)

Output voltage: DC 5.4V + / - 0.1V

Rs.200/-

Output current: Max 380mA

Standby current: <1mA

Conversion efficiency: >82%

Solar Mobile charger

Solar panel is a 12V 4000mW module.

Input voltage for adaptor: DC 5V to 19V (typical)

Output voltage: DC 5.4V + / - 0.1V

Output current: Max 600mA

Conversion efficiency: >82%

Comes with a five pin connector

Panel cable is 3mtrs

Connector cable is 1mtr

Indicator shows the status of the output.

Rs.1500/-

Solar Mobile charger

Solar panel is a 12V 12,000mW module. Rugged design.

Input voltage for adaptor: DC 5V to 15V (typical)

Output voltage: DC 5.4V + / - 0.1V

Output current: Max 400mA

Standby current: <1mA

Conversion efficiency: >82%

Price
Rs.2500/-

Solar Tablet PC charger

Solar panel is a 12V 4000mW module.
Input voltage for adaptor: DC 5V to 19V (typical)
Output voltage: DC 5V + / - 0.1V
Output current: Max 1000mA
Conversion efficiency: >82%
Panel cable is 3mtrs
Connector cable is 1mtr
Indicator shows the status of the output.

Price
Rs.2000/-

Digital Panel Meter @ 19.99 format for 12V inverter battery / hobby circuits etc

With reverse protection & switch. Powder coated cabinet

Now you can measure monitor the battery voltage constantly
DIGITAL PANEL METER for 12Volts inverter battery
Sri SMS Lead Acid Battery Meter / Hobby circuitsInput

- Ø Input Voltage: maximum 19.99volts **Rs.850/-**
- Ø Input Protection: Soft Start.
- Ø EMI Compliance: Inbuilt RF/EMI Filter Provided.
- Ø Power Consumption: approx; 2Watts.

All prices are inclusive of taxes and handling charges. Goods once sold will not be accepted back or exchanged. Goods will be sent to the nearest station where all standard courier service is available. Any breakages or damages should be claimed with the handlers. Warranty terms are as per individual component specifications. Please ask for further details before ordering. Prices are subject to change without notice. Models and their specifications are constantly updated. Hence confirm for any details you need before dispatch. Subjected to Vijayawada jurisdiction. Terms and conditions apply.

Pictures depicted may change due to various factors. Pl ask for the latest updates / prices and then buy / order
Product specifications might change. Cabinets may change.
